MC-WSP-540T-B

100V Power 40W / 20W / 20W / 10W / OFF / 8 Ohm	Max SPL 104 dB
Frequency Response 70 Hz - 20 kHz	Weight 3.3 kg

Description & Key Features

The MC-WSP-540T-B is a high-performance ABS wall-mount loudspeaker designed for public address and background music applications. Its two-way speaker configuration combines a 6-inch bass driver with a 1.5-inch treble unit for clear speech and wide-range music reproduction. With multi-tap transformer settings and an 8-ohm bypass option, it offers flexible integration into 70V, 100V and low-impedance systems.

- Durable ABS wall-mount cabinet with a clean modern appearance.
- Built-in transformer with multiple 100V and 70V power settings.
- Available in white as standard, with black as an optional finish.
- Suitable for PA, BGM and foreground music applications.
- Two-way sound system with 6-inch bass driver and 1.5-inch treble unit.
- Dedicated 8-ohm bypass mode for direct amplifier connection.
- Compact enclosure designed for reliable wall-mounted coverage.

- **ABS wall mount speaker. Elegant outlook with a modern aesthetic.**

- **With 20/30/40W built-in transformer for various power settings.**

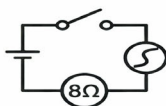

- **Black and white colors available to match any interior decor.**

- **Good for PA (Public Address) and BGM (Background Music) applications.**

- **High-fidelity 2-way sound system featuring a 6" bass driver and 1.5" treble unit.**

- **Flexible installation options with a dedicated 8-ohm bypass for direct amplifier connection.**

- **Durable ABS enclosure material ensuring long-lasting performance and protection.**
