MC-WSP-540T-B

MC-WSP-540T-B

Description:

The MC-WSP-540T-B is a high-performance ABS wall mount speaker designed to deliver premium audio quality for both public address (PA) and background music (BGM) systems. It features a robust two-way speaker configuration, combining a 6-inch bass driver with a 1.5-inch treble unit to ensure a wide frequency response and exceptional sound clarity. With a built-in multi-tap transformer, the unit offers flexible power options up to 40W and includes an 8-ohm bypass mode for various installation requirements. Its elegant, compact design allows for seamless wall-mounted integration into professional environments while maintaining high sound pressure levels for consistent coverage.

FEATURES:

- **ABS wall mount speaker. Elegant outlook with a modern aesthetic.**

- **With 20/30/40W built-in transformer for various power settings.**

- **Black and white colors available to match any interior decor.**

- **Good for PA (Public Address) and BGM (Background Music) applications.**

- **High-fidelity 2-way sound system featuring a 6" bass driver and 1.5" treble unit.**

- **Flexible installation options with a dedicated 8-ohm bypass for direct amplifier connection.**

- **Durable ABS enclosure material ensuring long-lasting performance and protection.**
