Compact analogue hotel room telephone with reliable DTMF operation and custom hotel branding support

Description & Key Features

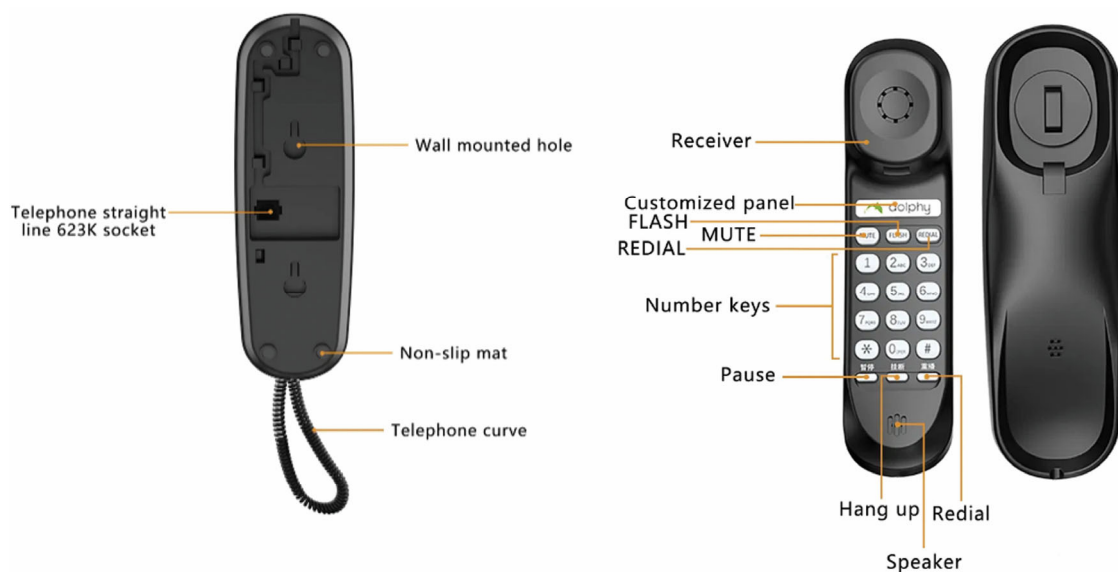

The MC-APH-R403BE/B is a compact corded analogue landline telephone designed for high-end hotel guest rooms and modern hospitality environments. Its durable ABS plastic casing and integrated CPU control support stable daily operation in a clean, space-saving format.

Designed around a standard DTMF dialling system, the unit supports custom hotel logo branding, message-waiting indication, redial operation, adjustable flash timing and 24V-60V DC line operation. Its lightweight construction, clear sound and multi-step handset volume control make it a practical telephone for hotel rooms, guest areas and service environments.

01 Custom Logo Design Custom logo area allows the handset panel to be tailored for hotel branding and room identity.	02 Triple-Proof Protection Waterproof, moistureproof and fireproof protective characteristics help support durable hotel operation.
03 Flexible Technical Compatibility Optional 100ms, 300ms or 600ms flash timing supports compatibility with different PBX requirements.	04 Message Waiting Light Standard 90-150V DC message-waiting light voltage helps notify guests of incoming or pending messages.
05 Compact Hotel Design Slim body design supports desktop or wall-mounted placement for hotel rooms and guest areas.	06 Certified Quality Listed certifications include FCC, CE, CIA, ISO9001, ISO9002, SASO and IEC.

Application Note

Recommended for hotel guest rooms, accommodation projects and hospitality service areas requiring a compact analogue telephone with custom branding, clear DTMF dialling and reliable everyday operation.
