Classic analogue hotel telephone with one-touch service access and PBX-ready operation

Description & Key Features

The MC-APH-R401BE/B is a classic corded analogue landline telephone engineered for reliable use in hotels, office buildings and schools. Its durable ABS plastic casing and integrated CPU control support stable daily operation in professional environments.

Designed around a standard DTMF dialling system, the unit supports one-touch hotel service keys, message-waiting indication, adjustable flash timing and broad PBX compatibility with systems including Avaya, NEC, Siemens, Philips, Alcatel and Huawei.

01 One-Touch Service Buttons Customisable 0, 3, 5 or 10 memory buttons provide instant access to hotel services.	02 Enhanced Protection Waterproof, moistureproof and fireproof protective characteristics support demanding environments.
03 Advanced Handset Control Multi-step handset volume control helps deliver clear audio tailored to user preference.	04 Message Waiting System Standard 90-150V DC message-waiting indication notifies guests of pending messages.
05 Flexible Technical Settings Optional 100ms, 300ms or 600ms flash timing supports different PBX networks.	06 Certified Quality Listed certifications include FCC, CE, CIA, ISO9001, ISO9002, SASO and IEC.

Application Note

Recommended for hotels, office buildings, schools and hospitality reception areas requiring a robust classic telephone with service-key access and reliable analogue PBX operation.
